Profile

Senior Software Engineer with 5 years of experience building scalable enterprise applications and microservices using Java, Spring Boot, Angular, SQL, and cloud technologies including AWS and Azure. Proven experience in designing RESTful APIs, developing microservices-based solutions, modernizing legacy platforms, and delivering full-stack solutions across Healthcare and Insurance domains. Adept at Agile development, CI/CD practices, and cross-functional collaboration, with a focus on building reliable, high-performance, and maintainable software systems.

Technical Skills

Languages: Java, JavaScript, TypeScript, SQL
Frameworks: Spring Boot, Angular, Spring Data JPA, Spring Security, RxJS
Platforms: AWS, Microsoft Azure, Kafka, Docker, Kubernetes, PostgreSQL
Tools: Git, GitHub, Bitbucket, Jenkins, Swagger, Jira, SonarCube, Snyk, Maven
Practices: Agile, CI/CD, Design Patterns, SOLID, GitHub Copilot

Professional Experience

Hexaware Technologies

Sep 2025 – Present

Senior Software Engineer

- Developed and enhanced features across domain-driven microservices using **Java 21**, **Spring Boot**, **Spring Data JPA**, **Amazon SQS**, and **Apache Kafka**, supporting insurance claim workflows including inspections, documents, notifications, and claim processing.
- Designed, developed, and maintained **20+** secure **RESTful APIs**, enabling seamless integration between frontend applications and backend services while adhering to enterprise development standards.
- Built responsive and user-friendly UI components using **Angular 21**, **TypeScript**, **RxJS**, and **Reactive Forms**, delivering full-stack functionality across multiple business modules.
- Contributed to **event-driven architectures** using **SQS** and **Kafka**, supporting **asynchronous communication** and improving **scalability** between **distributed services**.
- Implemented application enhancements, defect resolutions, **SQL**/database changes, and **Flyway** database migrations while ensuring application stability, maintainability and backward compatibility.
- Integrated cloud services including **AWS S3** for document and other media storage and **AWS Secret Manager** for secure configuration and credential management.
- Participated in **Agile** development practices including sprint planning, retrospective, code reviews, backlog refinement using **JIRA**, and cross-functional collaboration to deliver high-quality software solutions.

Infosys

Sep 2021 – Aug 2025

Technology Analyst

- Developed and maintained enterprise healthcare applications using **Java 8/17**, **Spring Boot**, **Angular 17**, and **SQL Server**, delivering full-stack solutions for business-critical workflows.
- Designed and implemented secure **RESTful APIs** and reusable backend services, enabling seamless integration between frontend applications and backend systems.
- Contributed to application modernization initiatives, migrating legacy application built on **Java JSP/Servlets** and **AngularJS**, improving maintainability, usability, and overall applications performance.
- Built automation solutions using **Java Swing** and **Apache POI**, streamlining manual data-processing activities and improving operational efficiency.
- Collaborated with cloud-based solutions including **Azure App Services**, **Azure Functions**, and **Azure Data Factory(ADF)** to support modern application workflows.
- Conducted knowledge transfer sessions, mentored team members, and collaborated with cross-functional teams to deliver business solutions.

Education

Bhilai Institute of Technology

Jul 2017 – Jun 2021

Bachelor of Technology - Computer Science (CGPA: 7.2)

Raipur, Chhattisgarh

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900)
